PROFESSIONAL SUMMARY

Senior Software Engineer with hands-on experience designing and delivering enterprise cloud infrastructure, full-stack applications, and data platforms across AWS and Azure. Skilled in DevOps, Infrastructure as Code, CI/CD automation, and cloud-native architecture with a track record of building secure, scalable systems end to end.

EXPERIENCE

JMAN Group

Senior Software Engineer

Jan 2024 – Present

Chennai, India

- Designed and delivered cloud-native full-stack applications using Next.js, NestJS, TypeScript, PostgreSQL and Prisma across multiple client engagements.
- Built and maintained CI/CD pipelines using GitHub Actions, Azure DevOps and Jenkins, incorporating SonarQube scanning, Trivy, secret scanning, migration dry-runs and test coverage gates.
- Implemented enterprise authentication using Azure Entra ID, OAuth2 and OpenID Connect, including multi-tenant SSO across multiple Azure Active Directory tenants.
- Designed and deployed cloud infrastructure on AWS and Azure using reusable Terraform modules, covering networking, compute, storage and security across multiple environments.
- Implemented AWS governance controls across multi-account AWS Organizations using Service Control Policies (SCPs), Tag Policies and AWS Config for tag enforcement and compliance.
- Built scalable data engineering pipelines using Microsoft Fabric, Databricks, Snowflake and dbt, including on-premises data gateway integration and medallion architecture design.
- Automated cloud operational workflows using Azure Logic Apps, reducing manual effort for Fabric capacity management and infrastructure lifecycle tasks.
- Containerized applications using Docker and designed deployment strategies for Kubernetes-based environments.

HackUp Technology

Penetration Testing Intern

Dec 2023 – Jan 2024

Remote

- Performed web application security assessments, vulnerability analysis and penetration testing following industry-standard methodologies.
- Documented findings and remediation recommendations for identified security vulnerabilities.

EDUCATION

Sri Ramakrishna Engineering College

Bachelor of Technology (Information Technology)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, Bash, PowerShell, Terraform (HCL)

Frontend: Next.js, React.js, Tailwind CSS, ShadCN UI

Backend: Node.js, NestJS, Express.js, REST APIs

Cloud Platforms: AWS, Azure

Infrastructure as Code: Terraform

Containers & Orchestration: Docker, Kubernetes

CI/CD: GitHub Actions, Azure DevOps, Jenkins

Databases: PostgreSQL, MySQL, DynamoDB

Data Engineering: Microsoft Fabric, Databricks, Snowflake, dbt

Monitoring: Datadog, Sentry, CloudWatch

Authentication: OAuth2, OpenID Connect, Azure Entra ID, AWS IAM Identity Center
